Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the [MySupport portal](#). Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

Interoperability matrix

This document describes the third-party software that works with the components of Micro Focus Connected Backup 9.0. It also describes how Connected Backup complies with third-party software requirements.

Data Center

The following table lists the third-party software that works with the Data Center software.

Component	Specifications
Server virtualization	<p>Server virtualization software.</p> <p>Performance of VM configurations is similar to physical machines; however, it is not guaranteed.</p> <p>To use VMs for your deployment, adhere to the following guidelines:</p> <ul style="list-style-type: none"> • Configure each VM as you would a physical machine. <p>The amount of hardware resources that you allocate to each VM instance must equal or exceed the minimum amount specified for a physical configuration.</p> <ul style="list-style-type: none"> • Each data center server requires I/O channels dedicated at the physical level. Ensure that you use: <ul style="list-style-type: none"> • Dedicated physical disk controller • Separate physical disk volumes • Dedicated memory • Dedicated CPUs • While VMs allow you to share storage, to ensure database performance and data integrity, configure VMs for non-shared storage. <p>Follow the storage recommendations for physical configurations, with one exception: you can follow your company standard for Web server configuration of Connected Web Services applications.</p> <ul style="list-style-type: none"> • Existing data center disk volume configurations still apply. Separate volumes for: <ul style="list-style-type: none"> • database .mdf files • transaction log .ldf files • Archives
Enterprise directory	LDAPv3

Component	Specifications
Anti-virus software	If you install anti-virus software on the Data Center server, do not let the antivirus software scan the Customer archive folders, the SQL databases (.mdf), or the SQL transaction logs (.ldf).

PC Agent

The following table lists the third-party software that works with the Connected Backup PC Agent software.

Component	Specifications
Mail client (Processed by Connected EmailOptimizer)	Any of the following applications: <ul style="list-style-type: none"> • Microsoft Outlook 2016 Version 1708, Build 16.0.8420.1000 or later (32-bit and 64-bit) • Microsoft Outlook 2013 (32-bit and 64-bit) • Microsoft Outlook 2010 (32-bit and 64-bit) • Microsoft Outlook 2007, up to SP2 • Microsoft Outlook 2003 SP3 • IBM Lotus Notes/Domino 8.5.1 (32-bit only), 8.5.2 (32-bit only), 9.0, and 9.01

Mac Agent

The following table lists the third-party software that works with the Connected Backup Mac Agent software.

Component	Specifications
Mail client	<ul style="list-style-type: none"> • Microsoft Outlook 2011 • Microsoft Outlook 2016
